

# Ace Dance Flex

For further information call  
**1300 453 396**

The Ace Dance Flex flooring system is our high performing, low floor height system. It is designed to offer uniform performance across the entire system. The parkett is precision machined for Ace in Sweden and features the Woodlock 5s next generation, unique jointing system.

Ace Dance Flex is available in a wide variety of timber surface options to create area elastic sprung dance floors, with traditional or contemporary aesthetics.

The system consists of a technical foam elastic layer, a load distribution board and a high quality engineered, and prefinished, hardwood board surface.

In line with our ethical procurement policy and dedication to sustainability, the system can be supplied with FSC® (Forest Stewardship Council) Chain of Custody Certification or PEFC™ (Program for the Endorsement of Forest Certification) Chain of Custody Certification.

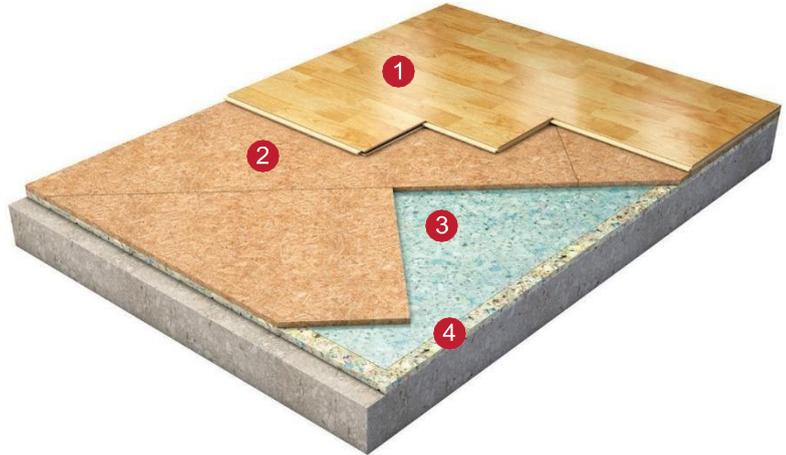

The system is fully tested and accredited to EN14904 standard  
- passing the highest A4 category. It has also been tested to the German DIN 18032 part 2 performance flooring standard, with completely uniform performance.

- ✔ Suitable for overlaying existing floors
- ✔ Meets the requirements of EN14904
- ✔ FSC® (Forest Stewardship Council) Chain of Custody option Certification or PEFC™ (Program for the Endorsement of Forest Certification) Chain of Custody Certification
- ✔ Low construction height
- ✔ Numerous timber surface finishes
- ✔ Suitable for bleacher seating
- ✔ Low maintenance costs
- ✔ Factory lacquer finished
- ✔ Thousands of m2 installed globally

# Ace Dance Flex Specification

1. Surface Finish Timber Engineered Board
2. Load Distribution Panel
3. Noise Reduction Layer
4. Foam Elastic Layer

## Ace Dance Flex Performance

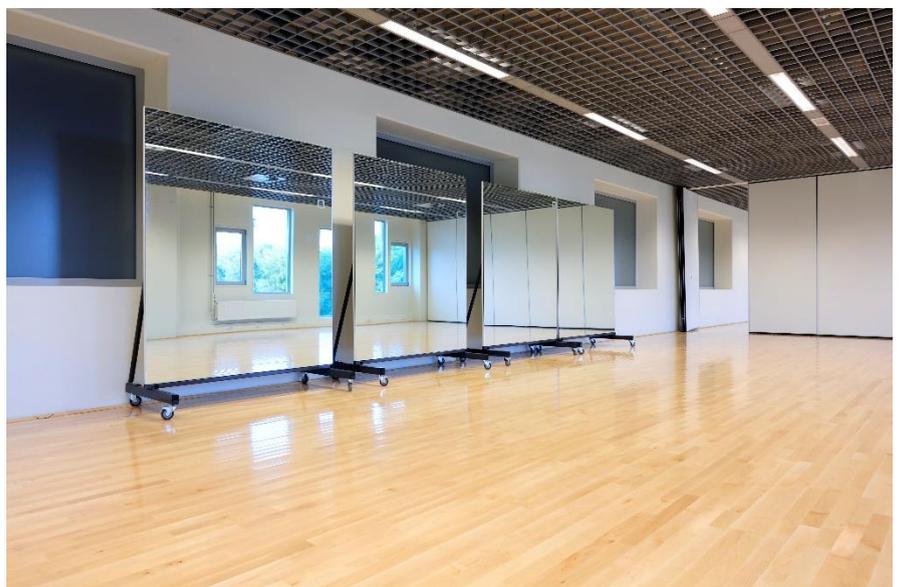

Performance Results Table

	Rolling Load	Acoustic Benefits	Friction	Shock Absorption	Deformation
Area Elastic	>1500N – No damage	Yes	0.82	60%	3.5mm
